

## Portapple LLC

At Portapple not only do we develop our own applications for the iPhone and iPod Touch but we also partner with individuals to help them turn their ideas into products. We work with people around the world so don't hesitate to contact us, no matter where you are.

At Portapple we believe that the best ideas, the best products, the best designs come from all over the world. If you are a developer, or a designer, or a person with an idea, we want to hear from you. If there's something you think people will want because it is cool, or hot, or indispensable, or unique, then contact us. We can help you develop it or distribute it.

## Tennis Trakker Pro

for iPhone and iPod Touch

from Portapple LLC

## Tennis Trakker Pro

Tennis Trakker Pro brings you details of a tennis match on your iPhone or iPod Touch. You track the outcome of each point with our easy to use interface. Keeping track of a tennis score has never been easier and statistical overview is one tap away.

Tennis Trakker Pro not only keeps track of all the players' shots but also provides a full statistical report that you can consult at any time during the match. This tool is ideal for coaches, players and parents, or anyone who loves to watch tennis at home or at the ATP and WTA tour.

Available on the iPhone  
**App Store**

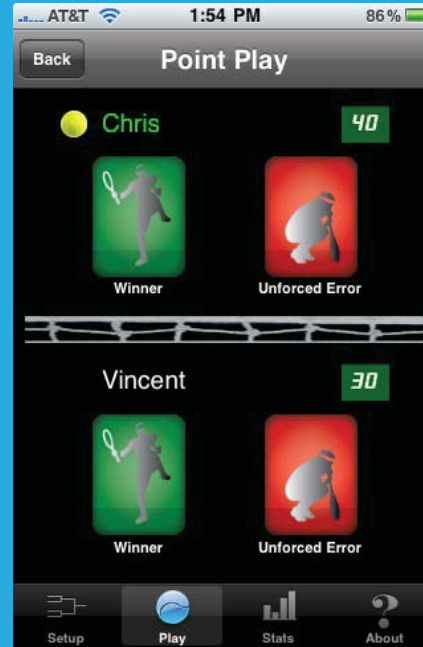

## Setup

Tap on the New Match button, then tap on Players' names fields to enter their names. Tap on the tennis ball to choose who will start serving. Enter the event location and choose scoring rules. When ready, tap on "Play" in the tab bar to start the match.

## Recording the score

The score is automatically recorded based on your choice of icons. It's as simple as that!

## Statistics

The application keeps track of the stats automatically. Every time you commit to a point, the application will record it and you can view the report anytime by tapping on "Stats" in the tab bar.
